Draco Sinister Cassandra Clare Pdf

Draco Sinister is the second installment of The Draco Trilogy by Cassandra Claire. Since it was written before Harry Potter and the Order of the Phoenix and set after it, it is now an alternate universe fic. It was very influential in the early days of the fandom, but became controversial when it was found that parts of it were plagiarized.

It follows Draco Dormiens and was followed by Draco Veritas.

It took me FOREVER to read it, because it's sooooooooooooo long.

It's a fast read but it seriously takes forever. Somewhere in the middle I got bored and stopped reading it for few monts, but when I picked it up again I've finished it in two days.

Still, I liked the first part better, tbh. We'll see what the third part has in store.

Ok. The review.

As the title states it's all about Draco (even if it has other POVs). And what a boy it is, Draco.

Let's be honest it's about Draco we all lust for ever sin It took me FOREVER to read it, because it's sooooooooooooo long.

Ok. The review.

As the title states it's all about Draco (even if it has other POVs). And what a boy it is, Draco.

Let's be honest it's about Draco we all lust for ever since Tom Felton hit puberty.

We all want to see him as this poor rich boy, a misunderstood lonely boy who's cold and cruel but deep inside he craves loves and affection.

When if fact, he's an asshole.

There is nothing, NOTHING in the books that would suggest that Draco is what we, crazy fangirls, trust him to be. We just lust for Tom Felton and his unsettling blue eyes that are to die for.

Oh, is it just me or did it became suddenly hot in the room?

Ok, breathe Eeva, breathe.

Back to the story.

The plot is decent (even if it drags on and on) and I was pleasantly surprised to see how good the writing it is (even if not the best).

The characters had a good, developed backstory. It was really cool to see that Ron had his own thing to

Draco Sinister

be special in, to see the Harry/Hermione relationship (even if I'm not a fan of this ship).

I liked Draco very much, he's snarky and super funny. Reading *The Mortal Instruments* and *The Infernal Devices* you'll know at once who was the "prototype" for Jace and Will. Same style of humour and behaviour.

I know it's just a fanfic, but it was really nice to dive into HP world again. World where Sirius lives and makes good life for himself, where Fred lives.

Harry is pretty cool in here, but he's no Harry from the books, mind you!

His much more short-tempered and much more sassy (yes, yes, I know, book-Harry have plenty of sass).

If you're one of those people who thinks Draco is not, in fact, an asshole, but scared, tormented boy, who knows no love, who hides his inner pain under snide remarks and cold sarcasm, then this fanfic is definitely for you.

Hey, I think so too, so no judgement here!

Second installment in the Draco trilogy by Cassandra Claire. The character work follows the same pattern as in the first book, so if you enjoyed that aspect you will be pleased. Unfortunately, this one is not tightly-plotted as the first. It's just too long and wordy for the story it tells, and it really needed a lot of editing and trimming down. There is still an enjoyable story and enjoyable character interaction here, but there is the risk that you may be bored before finishing.

This fanfic was really long, wasn't expecting it to be this long. So at times I did get bored. There was a lot happening and the character points of view kept changing so I was quite confused a lot of the time.

But I loved Draco, and felt sorry for him as well. I think he reminded me of Damon Salvatore as well, whom I also love!

I was also a little surprised with how this ended. Hopefully the final one holds something good for Draco, he deserves to get some happiness.

I must admit that I am not a big fan of the way CC has written most of these characters. They seem quite OOC to me. To be fair, Draco and Ginny were both pretty minor characters at the time this was written, so any fanfic author pretty much had a clean slate with that. But I hate hate HATE the way she writes Hermione. My lovely, badass, know it all Hermione is a whiny jealous bitch. It's not super obvious, but it's there. She loves both Draco and Harry, but chooses Harry. Yet anytime anyone makes a move on Draco, she gets pretty jealous. This I could somewhat forgive, but she does this even when Ron flirts with other girls. She is super self-centered and thinks everything is about her and is always yelling at her friends that "not everything is about them!" *eyeroll*

I think because I am not a fan of the way her characters are written, I am not much of a fan of the romantic relationships in this story. I dislike Harry/Hermione to begin with, I think I could have enjoyed their relationship if 1) Hermione wasn't so dislikable and 2) it wasn't so freaking melodramatic. Like I live for angsty love in fanfics, but I want it to be in-the-moment love, not we-are-predetermined-to-be-together-let-me-mention-that-at-every-moment love. I dislike the hints at Draco/Hermione in this story, even though Dramione is my all-time OTP. Partly because again, I dislike Hermione here, but partly because it is missing the quintessential ingredient for any good Dramione story: initial mutual dislike. Draco/Ginny is the other burgeoning relationship in the story and though Draco Sinister is the first D/G story I ever read and it led to many years of being a D/G shipper, this story again lacks the Romeo and Juliet-esque "my family will kill me if they find out" aspect, as both Narcissa and the entire Weasley clan approve. Additionally, Ginny just decides she likes Draco all of a sudden and starts pursuing him and is like "I know you. I love you." and it's all very melodramatic. Note: a crush, however strong, is not love. In general, all the relationship stuff is very dry and I can't really connect to it.

Why, then, did I give this story 4 stars? Because the plot is AWESOME. Really, it really pulls on the

Draco Sinister

mythology of the wizarding world and combines it with other mythology and has lots of fun twists balance with some fun banter (a lot of it borrowed, but some of it original). Rarely is it that I read fic for the plot (heh) but thi is an exception.

I also complained about some of the chracterization and relationships but I must say that I like Harry and Draco's tolerance turned friendship turned bromance (soon to turn quite homoerotic in the next installment).

So...if you're looking for a fun story set in the HP world, this is your ticket. And don't worry too much about my character complaints. They aren't distracting to the story and many people don't have a problem with it. ...more

Hmmm... It was actually a very interesting read. It isn't that badly written, but in my honest opinion, the characters don't fit the personalities of Harry Potter that well.

I read it as just another character which had somewhat relations to the Harry Potter universe, and it made HarryxHermione so much more palatable for me and all the odd little quirks that didn't quite fit the characters. Don't roast me but I can't stomach HarryxHermione, its very unusual. I loved the original sister-brother platonic best friend relationship that JK Rowling portrayed, but Clare has just... I don't like it for no reason part from I personally just don't like it. Pretending they are just random characters helped make it more palatable.

I must say I started the Draco Trilogy, because of pure curiosity and Dramione. However even if it didn't work out - I can deal with GinnyxDraco. I even ship it. She portrays the relationship rather well. The plot overall is not bad. I enjoyed the whole going back in time to fetch army and stuff. Ben was rather interesting, and Clare could have expanded on Ron being a Diviner a bit more, he was kind of discarded. The whole development of Draco's character wasn't that badly portrayed. Harry and Draco's brotherly friendship thing isn't that bad either, I like the whole "I platonically love and would die without you, but you still annoy the crap out of me" vibe. I would write more, but i'm lazy. Let's just say if you come in expecting full of HP parallel and it slots in perfectly with the universe and everyone's in character. Please don't. ...more

Draco Sinister has always been the least favourite of the Trilogy, but for some reason this time around I appreciated it a lot more. I really understood the darkness that Draco goes through and it really helped me. When he finds his happy memory at the end... I cried.

I guess this book is my least favourite because I've always hated all the drama surrounding Hermione. Honestly, that was very frustrating this time, too, and I still hate it all. I'm not at all excited for the drama that awaits me in book 3 with her as well. But I guess I will endure for the more funner drama that is Tom <3. As always, I love the portrayal of Ginny, and I very much appreciate how Harry is shown as to actually have issues from how he grew up and having lost his parents. Of course, the most important of

all the character portrayals is Draco: especially after joining the Drarry fandom, it's really nice to see him portrayed as closer to the book, but also with his own light side. I've always liked the Draco of the Draco Trilogy.

Reading this again was lovely. Excluding the Hermione drama, the growth that Harry and Draco go through is incredible and just... amazingly done. The Buffy and Angel quotes are amazing and I'm so happy I watched Buffy so that I catch more of the references. This book... This series is home, and I'm so happy to be back home. ...more

This is more like a 2.5 stars.

Holy mother of J.K. Rowling! I thought I would never finish this fic.

As you may know, it is a very long one, and at first I was like "ok, I love long stories" but this consisted of a really big bunch of unnecessary descriptions and too many sarcasm lines, REALLY! This fic could've been simplified to 300 pages, even 400, that's the main reason of why it took me so long, I even had to skip some parts, which was awful because the plot (excluding the way how the ships This is more like a 2.5 stars.

This part of the story shows us how Jace and Clary, from The Mortal Instruments, were born, as well as some of the details, like the parallels with demons and Latin stuff, I guess this may continue for the next installment. So, if you are a fan of TMI's books you'll have fun in some parts.

Oh, and this confirms that Cassandra Clare has a serious relationship of love/hate with ducks.

I would actually like to give this 3.5 stars.

For a book she didn't make any money from, I must really commend Claire.

The story was long, too long for what I want fanfic to be, but, hey, at least it kept me occupied.

I read Mortal Instruments and Infernal Devices first so Draco was rather very predictable; it had become quickly obvious that Clark modelled Jace and Will on her Draco.

Whatever.

I liked knowing Ron Weasley in a better light and he was easily my favourite character in the whole boo

book. (in the canon Harry Potter world, I still can't choose between Hermione, Lupin, Dumbledore or Severus)

Harry was...Potter. Nothing really new to him.

Hermione here was such a...teenager. Ugh.

Ginny was...eh.

But, I still liked the story. A bit long, but the comedy was nice. The edition I read had bits after each chapter where parts that were lifted from other stories were listed that. It was fun to look forward to the end of each chapter for that.

A lot of people hate Clare for the way she made her money. Whatever.

Well done, Clare. ...more

Upon reading this again I realise why I liked it so much the first time I read it. Maybe it is inevitable of fanfics, but this is a story of relationships. Don't get me wrong, the plot is fine, but it seems to be nothing much more than a platform for Clare to flesh out the relationships between characters and for characters to discover themselves. This was a long fic, and it was easy to get lost in the world. I recall veritas being even longer, so I'm going to pause a little while before starting. Quite interesting, and very well written. Some of the plot wasn't logical - like Arthur Weasley being made Minister of Magic, the Weasleys being Hufflepuff heirs - and Draco's character here is VERY unlike the Draco Rowling built; nevertheless, the story was good, and definitely worth the time spent on it. While it's a little sad that many parts of the story are plagiarised from other fantasy books, that knowledge does not, at least for me, affect the enjoyment of Draco Sinister.

I got most of the way through and then I realized I just didn't care anymore. The first installment was so compelling. It was a quick and easy read. But this one was dense and difficult and I couldn't help comparing it to the original books.

To be honest, I did not read the whole thing as it was very long, but I appreciate the effort, some parts of the book are very, very funny, others quite epic :-)

I love Draco's character in every possible way!

I actually read this trilogy while it was online, before Cassandra Claire became published. It was awesome fun. I will have to read it again.
