Draco Veritas

By Cassandra Claire

Draco Veritas Cassandra Clare

Draco Veritas is the final installment of The Draco Trilogy by Cassandra Claire. Since it was started before Harry Potter and the Order of the Phoenix and set after it, it is now an alternate universe fic. It was very influential in the early days of the fandom, but became controversial when it was found that parts of it were plagiarized.

It follows Draco Dormiens and Draco Sinister.

Harry Draco Veritaserum

Well that was super long but exciting journey.

It took me FOREVER to read it, but when I reached the point of more or less 60% I couldn't put it down. I had to know what's gonna happen and how it's gonna end.

My little fangirl heart is now satisfied.

Time to breath in, breathe out and move on.

No, it doesn't Dude! Who am I kidding? I will NEVER be able to move on.

Ok, Eeva, snap out of it! Stop daydreaming and do your review!

Ok, so, as I said, reading it takes forever. It's a serious comitement, so if Well that was super long but exciting journey.

Ok, Eeva, snap out of it! Stop daydreaming and do your review!

Ok, so, as I said, reading it takes forever. It's a serious comitement, so if you're not crazy obsessed with HP then think twice.

I am, and I consider reading this fanfic trilogy the best idea I had this year. So far, I mean.

As you may know (or as you may not) I'm not Harry/Hermione shipper. I'm also not Draco/Ginny shipper.

I know, right?

I was satisfied how HP books ended. But if I could change one thing... Well.. I'm a huge Drarry shipper and I was hoping against hope that I will get some of it. I did, but not in a very satyfyng way. Oh, well... girl can't have everything, can she?

Draco Veritas

Other pairings here are very nicely done (YAY for Sirius and Narcissa!) even if I'm not a fan (smaller yay for Harry and Hermione).

I liked how some characters, that we haven't really get to know in the original books, were developed (like Charlie Weasley, Pansy Parkinson, Narcissa Malfoy or even Tom Riddle).

The most awkward part of this fanfic is Blaise Zabini being a GRIL! Blaise! Come on! It's a guy's name. So. Awkward.

Yeah, you get my drift. That's how Blaise Zabini is.

It was too weird to look past that, even though fanfic Blaise is pretty cool.

Besides that it was so cool to see all my beloved characters alive and breathing. From my previous review you know that Sirius is alive, but in this part we get to know that Alastor Moody is as well. I don't know, the fact that Moody is alive makes me feel like everything in this world will be all right.

All you, crazy Draco fans, this part is heaven on Earth for all of us! All of you, I meant to say! It's not like I'm crazy Draco fan! I'm not!

He's so vulnerable and hurt and unsure and scarred (both physical and emotionally) and misunderstood, hiding his feelings, afraid to show love and affection but feeling them oh so deeply. Yeah, I know that book Draco is just an asshole. But this Draco. Yeah. He's book boyfriend number one!

Harry is more or less the same, just full of teenage angst. And I mean FULL of it. I have not seen such an angsty teenager with hero complex since... well, I don't know if I ever seen it in such scale. He's still the Chosen One, The Boy Who Lived, though. Hey, that's fine by me. Just remember, he's not the focus point of those stories!

He becomes great friend to Draco and that's something amazing, something I dreamed about while reading HP books.

Hermione is still super cute know-it-all, determined to help her friends in defeating Dark Lord (or Dark Lords, to be exact). Ron has his own great role to play and that's great. He's no sidekick here.

Plot is much more interesting than in "Draco Sinister" but it drags on and on and on even more. There are bazillion of subplots, every one pretty important for the main plotline, but sometimes it's getting tiring.

Scenes tend to be too long - my fave kiss scene is like 5 pages long - but they're still interesting and super funny.

Draco Veritas

critically at first, not used to the raw style of the first book. By the time I finished the second I was hooked. However, it took me three or four tries to finish the third. I concluded at first that it was a perfect dry run for her, cultivating the style/skills necessary for writing her own novels.

There are several inconsistencies compared to the original. Sometimes you cannot tell if some reflection of a character is from the books or the movies. The books set in at the end of sixth year, leaving a gap from the end of the fourth book onwards which takes care of some inconsistencies in terms of the characters' personalities. But the character development from that point on is impeccable. Other inconsistencies include the spells (which are sometimes more accurate Latin than that of the original and at other times not Latin at all but rather incantations in verse form) and Dumbledore's behaviour, wherein he is either notably absent only to make some "deus ex machina"-thing afterwards (it would be a spoiler to specify the "thing").

Nonetheless, I finished the trilogy now for the third time, and I don't regret it. It made several things clear to me about myself. It got me reflecting on myself, which is a great feat in itself. Not even Shakespeare managed that. Sorry if that last part is not helpful for you. ...more

Broom Cupboard Draco Veritas

That's been a long trip... but it was worth it... Respect!

Draco Veritas is book 3 in the Draco Trilogy fanfic.

This book was longer than the previous 2 put together! There were times when I got quite bored and the story sometimes just went on and on, with nothing much actually happening. I also really hated Hermione and the fact that she just couldn't choose between the boys, or how when she was all alone with Draco she'd be thinking about him and so on.

Draco is the only character that I still liked after finishing the book; all the others seemed so different. Draco Veritas is book 3 in the Draco Trilogy fanfic.

Draco is the only character that I still liked after finishing the book; all the others seemed so different from the Harry Potter books, almost unrecognisable. Parts of this book did make me laugh out loud.

Overall, a good end to the trilogy. ...more

Cassandra Clare Draco Veritas Pdf

The first book of the trilogy was just right. The second was way too long, and the third one is ridiculously long. Twice as long as the second, which was already a monster. Still, I found it a bit less rambling than the second, and it does have the advantage of finally ending the saga.

I did enjoy the characters, and again there was an interesting plot, if you have the patience to finish reading it.

An intricate AU trilogy that wasn't quite as good as I thought it would be.

Draco Veritas Portugues

Honestly it was amazing. It was long but I didn't mind I just needed to keep reading. The story line is amazing and the characters are so deep.

This was my second read-through, and my first since the series was finished, which means the first time I've been able to read it from beginning to end. Oh, and just in case you weren't aware, this is the third in a fanfic trilogy for the Harry Potter books, in an alternative universe started in the wait between books 4 and 5, and one in which Draco is redeemed (I wish Rowling had redeemed him too!).

In a way, this fic was a companion for me through my late teens to my early 20s, due to the nature of the chapter-by-chapter uploading of fanfiction, so it's perhaps not a surprise that it has stuck with me for 8 years.

It's a strange experience to finish reading this again, because while I enjoyed it during the read, at the end I have looked back and realised that I feel let down. Perhaps because I remembered so vividly the best parts - so these no longer struck me with the initial amazement I felt when I first read them, or because on a continuous readthrough you are more able to spot the inconsistencies, or because the little surprises that spring up were not surprises to the second-time reader.

The amount of detail Claire puts into her characters is amazing. I would say this fic is more of a character study than anything else, due to the sheer volume of words dedicated to the interaction between the characters, and the glacial pace of the plot. Don't get me wrong, a LOT happens in this fic, but it is, according to the fanlore wiki (http://fanlore.org/wiki/Draco_Veritas), 537,821 words long, in just 17 chapters. Consider that Nanowrimo considers 50,000 words to be a novella, or that this is more than twice the length the Order of the Phoenix, the longest Harry potter book at 257,045 words (and itself said to be longer than the Bible).

So, for the character detailing and the relationship building I loved this fic. From the first reading I probably even absorbed some of the relationship aspects into my own understanding of relationships. It was easy to get lost in reading this, but by the end of it, I wondered what I had read.

So I thought I would be giving this 5 stars, but I find myself giving it 3. Would I recommend you to read it? Yes. Read it if you have time on your hands, if you miss the HP world, if you're open minded about fan fic. Read it for an in-depth exploration of characters and their relationships with each other. Read it

Draco Veritas

if you loved Sam and Frodo's friendship, or to read a deep platonic love between two male characters.

Draco Veritas Pt Chomikuj

So I'm a big Harry Potter fan nerd, had my 38th birthday party at the HP theme park in Orlando, laugh if you like it was a blast. An fellow HP friend asked so what did you think of the Draco trilogy? The huh? I asked stupidly. And was thus nearly kicked out of the HP fandom. For those NOT in the know, the Draco trilogy is a self published online fan fiction set of 3 books by Cassandra Clare, oh she of The Mortal Instruments fame. (I disliked the Mortal Instruments, but thought her Infernal Devic So I'm a big Harry Potter fan nerd, had my 38th birthday party at the HP theme park in Orlando, laugh if you like it was a blast. An fellow HP friend asked so what did you think of the Draco trilogy? The huh? I asked stupidly. And was thus nearly kicked out of the HP fandom. For those NOT in the know, the Draco trilogy is a self published online fan fiction set of 3 books by Cassandra Clare, oh she of The Mortal Instruments fame. (I disliked the Mortal Instruments, but thought her Infernal Devices series was fun steampunk fluff.) Except Claire pulled the Draco trilogy down off the web once she got famous, after it was up for only 2 weeks or so in its entirety, or so HP legend goes. But HP fans being the nerds we are, you can still find it online with a little digging. So, as a break from my insanely cerebral job, and because nothing sets me off like being told I can't find or read a certain book, I started reading. These books are the Bertie Botts Every Flavor Beans of fanfic. You know they are just sugar and artificial flavor, and really bad for you, but they are strangely additive nevertheless. The good flavors- the humor. I found myself just howling at many many points in the book. (Bertie Botts Every Flavor Condoms, for example). The dialogue is fun- Claire has smart ass teenage wit down. The fake romance Trousers novels that Ginny is reading- I adored that bit. Who - or what- pray tell is Clare making fun of? The twilight books? Her own work? Fanfic or the romance genre itself? I don't know, but the fact that every character who picks up the romance novels can't seem to stop reading them, and finds them strangely addictive- that was a nice inside joke.

There are several earwax flavored moments. First, these books are WAY TOO long. I guess this is what happens when you self publish, apparently with no editor in sight. Second, whoa the teenage romance crud is over the top. But, again the humor helps. And speaking of romance, there is some level of slash fiction/gay subtext in there. Although I suppose come to think of it you do get that in her Mortal Instruments books also. Not that I have a problem with that, but in particular two male characters share a kiss that I just found gratuitous.

So, overall not great literature, but generally fun, and perhaps THE fanfic to end all fanfics, so maybe HP fans find it worth reading for that alone. ...more

i'm slightly torn. I feel like I've just wasted the past 3 weeks of my life trying to finish this "fanfic" which is longer than like most novels. seriously. 1697 pages. What fanfic is that bloody long? It was like an on and off phase of reading... probably why it took me like 3 weeks. Some slow bits, some fast... She really likes her descriptions.

But on the other hand it wasn't terrible? Like I had to finish the trilogy and know how everything ends and all the fluffiness behind it all. But that i'm slightly torn. I feel like I've just wasted the past 3 weeks of my life trying to finish this "fanfic" which is longer than like most novels. seriously. 1697 pages. What

fanfic is that bloody long? It was like an on and off phase of reading... probably why it took me like 3 weeks. Some slow bits, some fast... She really likes her descriptions.

But on the other hand it wasn't terrible? Like I had to finish the trilogy and know how everything ends and all the fluffiness behind it all. But that said, it was rather predictable, and everything was like

but less dramatic..... I didn't like the ending though, it felt rather unresolved for me, but i'm extremely picky regarding endings. Tbh its actually quite resolved I just felt unsatisfied.

Anyways. That aside. like my last review for its prequel, do not read like a HP fanfic, because everything is out of character So read it as some other novel thingy, that's not a fanfic.

There is a lot more I could rant about but I don't like typing and its my nitpickings ^^ If you're curious just contact me somehow... ...more

First off, this story was too long. Sometimes, the characters will be in dangerous situations and they'll start long and ultimately pointless discussions about love and desire and hope and fate and crap and... But. I overall rather liked it. I couldn't be bothered though with all the descriptions of smells and tastes (she kissed him and he tasted of tears and blood and smoke, she smelt of sandalwood and love potions and ocean and blah...)

I admit I devoured the book. Plenty of suspense. Cliffhange First off, this story was too long. Sometimes, the characters will be in dangerous situations and they'll start long and ultimately pointless discussions about love and desire and hope and fate and crap and...

But. I overall rather liked it. I couldn't be bothered though with all the descriptions of smells and tastes (she kissed him and he tasted of tears and blood and smoke, she smelt of sandalwood and love potions and ocean and blah...)

I admit I devoured the book. Plenty of suspense. Cliffhangers. Some predictable, like when (view spoiler)[Harry asked Hermione to marry him. Really. He was like, all of 17 years old...of course she said no. No surprises there... (hide spoiler)] , some not so.

This book was way too long.

The teenagers took themselves way too seriously with their love and sex and future and fate stuff in my opinion. They ALL behaved like aged people.

But. The book made me laugh. It was fun, once I got over a lot of unnecessary descriptions and descriptions and descriptions and descriptions and descriptions that Claire wanted to bore us with. And in the end, it was just too bad that she wrote The Mortal Instruments after this. And that she supposedly made no money from this.

But. Good book. ...more

Draco Veritas Pt I

I am a Harry Potter fan and when I started reading this trilogy I made the mistake of wanting it to be like the Harry Potter series, but it isn't. After getting over that and reading this trilogy as I should have, as it's own story, I enjoyed it. There are some parts of these books that I enjoyed more than the Harry Potter series. Namely Draco. I do not wish to ruin this story but will say that I enjoyed the book and especially enjoyed the character of Draco

The epic conclusion of the Draco Trilogy. Unbelievably long, so I had to skip some parts, but still it was an incredible journey :-)

Draco Veritas

Draco Veritas Ñ• Đ°Đ°Ñ‡Đ°Ñ,ÑŒ

I might finish reading this someday, but I'm in no rush. I felt betrayed when Cassie pulled the whole trilogy off the Internet, but I hate leaving things unfinished.

I love it!
