Fix Her Up

By Tessa Bailey

Fix Her Up Book

New York Times bestseller Tessa Bailey launches a super sexy new series featuring the blue collar men who work for a HGTV-esq house flipping business.

Fix Her Upper

After an injury ends Travis Ford's major league baseball career, he returns home to start over. He just wants to hammer out his frustrations at his new construction gig and forget all about his glory days. But he can't even walk through town without someone recapping his greatest hits. Or making a joke about his | bat. And then there's Georgie, his buddy's little sister, who is definitely not a kid anymore.

Fix Her Up Tessa Bailey Epub

Georgette Castle has crushed on her older brother's best friend for years. The grumpy, bear of a man working for her family's house flipping business is a far cry from the charming sports star she used to know. But a moody scowl doesn't scare her and Georgie's determined to show Travis he's more than a pretty face and a batting average, even if it means putting her feelings aside to be "just friends."

Fix Her Up Tv Series

Travis wants to brood in peace. But the girl he used to tease is now a funny, full-of-life woman who makes him feel whole again. And he wants her. So damn bad. Except Georgie's off limits and he knows he can't give her what she deserves. But she's becoming the air he breathes and Travis can't stay away, no matter how hard he tries...

Once you read a Tessa Bailey romance, there is no going back... And FIX HER UP is not an exception because you will fall in love with Travis and Georgie instantly...

Instantly you are drawn to this marvelous cover, and then you read the synopsis and you think... "WOW GIVE ME THAT BAD BOY RIGHT THIS MOMENT! Let me just start this review by saying that if you have not read a book by Tessa Bailey then why are you even here? I mean, why are you waisting your time by reading this review? (Totally ki

Once you read a Tessa Bailey romance, there is no going back... And FIX HER UP is not an exception because you will fall in love with Travis and Georgie instantly...

Instantly you are drawn to this marvelous cover, and then you read the synopsis and you think... "WOW GIVE ME THAT BAD BOY RIGHT THIS MOMENT! Let me just start this review by saying that if you have not read a book by Tessa Bailey then why are you even here? I mean, why are you waisting your time by reading this review? (Totally kidding... maybe not... I don't know...) But in all seriousness, if you have not read a book by Tessa then I HIGHLY recommend that you start as soon as you can. There is no denying that Tessa's writing is unique in its own way. The best kind of way that will have you drawn to the page, making you crave more and more through every turn of the page, every swipe you make, every word you may listen. With FIX HER UP, she has gained so much more respect than what I original had towards her, because of how she describes the female main character"Georgie.

When you are first introduced to Travis and Georgie, you do not expect the scene that you read. That's how Tessa bring the BAM to the beginning of the story. Known from their childhood, and been neighbors who live in Long Island (which is where I am from **squeals**), and grew apart because of their own differences. Travis becoming a professional baseball player, whom throughout out ends up getting injured and his career comes to an end. Georgie has known him since she was little, the youngest sister of Travi's best friend Steven. Always running around and following them as a child. She always attended all his games, Travis' biggest cheerleader, Georgie became enamored by him. To him, Georgie has always been Steven's little sister that no one pays attention to. But after one hangover morning, Travis' perspective towards her changes in the best of way. She is now all grown up, has bought her own house, is a clown for a living... YUP! You read that correctly, one of my favorite female characters of 2019 is a CLOWN FOR A LIVING!

Georgie is a clown for a living ladies a gentlemen, it does not get better than this. And I am not being sarcastic at all. Seriously... I am NOT! I love that Tessa has created a female role in which she enjoys the perspective of entertainment for kids. Yes, it is a fictional story in a fictional world but I just adore how unique her career is in comparison to other careers we read about in romance novels. She is an independent individual, in which is also another shot of perfection about this novel. She is all grown up now, but grown up in the best of way that Travis slowly learns to adore and love most about her. The affection he has towards her charisma and attitude really warms your heart. You just want to hug Travis, you want to ravish him! Of course in the best of ways... **wink wink** But he is not only sweet, he is this possessive, jealous, delicious and scrumptious of a specimen. Seriously ladies (and gents, depending on your taste) you will be enthralled at how lovable Travis truly is. Especially when he is in awe of Georgie;

"He wanted to give her pleasure. Wanted to protect her. And fuck the consequences, he wanted to turn himself into her addiction..."

The story plot itself continues after agreeing to a deal of being in a fake relationship for the sake of his career and hers as well. Pretending turns into wanting more between them both when it comes down to the emotional and physical side of a relationship. Travis' restraint is at its thread or truly wanting Georgie, while she is virgin who is still enamored with her childhood/teenage crush. Once they are together however, everything around dissolves and it's only them two. The witch craft that Tessa has with her writing is one that always fascinates me and truly does leave me flabbergasted. And once you read their story, your heart will forever be melted with Tessa's writing.

Overall, FIX HER UP is a comedic romance novel that will forever be engraved to your heart. Once you read Tessa's writing, there is no going back. There is no thinking "Oh should I read it?" There is only thinking "adding to my TBR and my bank account is going to hate me." (**laughs at own joke) Thank you to Tessa for always being a sweetheart, Long Island girls have to stick together in the best of ways ;)

Georgette Castle is a 23 yr. old woman who feels like nobody really takes her seriously. Her family rules the real estate scene in her town of Port Jefferson, Long Island with their popular renovation business. Georgie has always done her own thing, and enjoys planning children's birthday parties, but lately she wants more, and is ready to live her best life, and make all her dreams come true. This is the year she's going to have it all. She's prepared to work to fix herself up, from career, to wardrobe, to dating, she wants a full makeover. She's a woman in charge, who's tired of sitting on the sidelines, and is going to make things happen for herself.

Then a curve ball is thrown her way when the guy she's loved and had a king size crush on since her teens moves back to town. She's thought Travis Ford was her soulmate for as long as she could remember. He'd always been her hero, and the object of all her fantasies, but as her older brother Stephen's best friend he was untouchable.

Travis Ford had amazing success as a professional baseball player, and now he's returned home to Port Jefferson feeling like a failure after an injury leaves him facing retirement at age 28. His career has gone up in flames, and he didn't know what to do with himself anymore.

Georgie is shocked to see this confident, beautiful, man all broody, and on a downward spiral. She's always thought he was extraordinary, but apparently he couldn't see it right now. He was currently participating in, and leading his own pity party, and it was time for him to snap out of it. She was determined to show him his worth. That he was more than the town's baseball star, and a famous athlete. Both wanting to change their image they come up with a plan to fake date. Travis wants to shed his bad boy image, and Georgie wants people to finally notice her.

The longer they pretend the more real their feelings become. They are in dangerous territory when the passion between them can't be contained any longer. The unattainable guy Georgie has been infatuated with suddenly wants her. Travis knew his best friend's little sister should be off limits, but he couldn't fight his attraction. She'd become the best thing in his life, and his biggest temptation. She was stunning, so sweet, and real. Small, but fierce, Georgie accepted him as he was, and helped him be a better version of himself. The once annoying friend's little sister was now the woman he craved and felt like he couldn't live without.

-Sheâ€™d always found him the most attractive man on the planet.

-Was he the only man alive who could get to her like this?

Fix Her Up by Tessa Bailey is a fabulous romantic comedy I adored! This book is a hilarious, super cute brother's best friend romance that had me smiling throughout. I loved this couple together, but especially loved Georgie. She's one of my favorite heroines I've read. She was just such a kind, positive person with a huge heart, but she knows her self worth, and tells it like it is. Then there's Travis. The man is so unbelievably sexy, and his chemistry with Georgie is sizzling hot! I can't wait for more in this series, and look forward to Rosie & Dominic's book next!

Fix Her Up

flipping. Little did I know that the flippy family business was not going to be the focus at all (I bet book #3 is because Bethany is gonna need some luvinâ€™™ eventually too!!!!), but rather it was going to be about a FORMER BASEBALL PLAYER

Oh my lort. Any time I can picture Clayton Kershaw as the leading male I get all double-leg-kicky

But then the female lead was a CLOWN

Literally. A C.L.O.W.N. No one enjoys a clown for cripes sake! However, I am nothing if Iâ€™™ not a masochist trooper, so I marched on with just a bit (translation â€™™ A LOT) of trepidation. For any of you who are also super not interested in reading about Bozo getting her groove on, have no fear! Despite our leading lady legit wearing the white face paint and honking nose, she also had goals of becoming THE name in childrenâ€™™s party planning and was not a manic pixie dream girl like I feared she would be.

And then. THEN! It was a FAKE ROMANCE TROPE!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Oh how I love the letâ€™™s pretend weâ€™™re in love trope. The terms this time around were MLB bad boy Travis suffered a career-ending injury before ever reaching 30 and went into a downward spiral. When a chance at a broadcast career becomes available, Travis has to make quick work of spit-shining his image. Enter his bestieâ€™™s sister, Georgie. In love with him since they were in kids, sheâ€™™s willing to put her feelings on the backburner in order to help Travis achieve his goal as well as for her to achieve hers (*cough losing her V-card cough*).

Not only was this completely adorable, but also? They went to pound town before the 50% mark and lemme tell you, Travis had more than just magic hands

You know what that means, right? Splooooooooooooooooooooooooooooosh

Thereâ€™™s only one thing I have to say about Travis: #hecangetit

Fix Her Up

Bottom line?

All the Starz. Iâ€™ve had a shitty couple of weeks and this baby turned my frown upside down. A perfect poolside read!

Fix Her Up A Novel

4.5 STARS

One second, laughter kindled in his throat, and the next, it was tight. Just tight. Because flushed and looking up at him with her bright green eyes, Georgette Castle was the most beautiful thing on the planet.

This was so stinking cute! A lighthearted and steamy romance full of laughs and sizzle the likes of which only Bailey can write. I read it with a smile on my face from beginning to finish.

Georgette Castle is the perfect amount of quirky that I love in my heroines. She's the yo 4.5 STARS

One second, laughter kindled in his throat, and the next, it was tight. Just tight. Because flushed and looking up at him with her bright green eyes, Georgette Castle was the most beautiful thing on the planet.

This was so stinking cute! A lighthearted and steamy romance full of laughs and sizzle the likes of which only Bailey can write. I read it with a smile on my face from beginning to finish.

Georgette Castle is the perfect amount of quirky that I love in my heroines. She's the youngest sibling in her successful siblings and a bit of a black sheep. Her older siblings have their careers and life together, and Georgie is a professional clown. I mean, c'mon! How often do you read that? She's incredibly endearing and loves her job entertaining kids. But she also wants her family to finally see her as the woman that can do something right in their eyes.

There's a dash of unrequited love when it comes to her and Travis. She's always harbored a secret crush on her older brother's best friend but she never had a hope in snagging his attention outside of being the annoying little sister that tagged along and mooned after her brother's friend. Travis is a professional MBA player whose career comes to a crashing halt after a bad injury. Now he's back in the small town he couldn't wait to get away from and dealing with his new reality.

I loved the relationship development between Georgie and Travis. They start as unlikely friends and confidants that soon leads to something more when Travis finally sees the woman Georgie always was. I loved that it wasn't about Georgie changing herself to be seen in a different light by him but rather just coming into her own and comfortable with it. I loved the way that Travis brought her strength and helped her bring out the best version of herself and have her family finally see her. I loved that Georgie was a strong heroine outside of everything too. She didn't need Travis to help her, but she also brought out the best version of him.

This was such a cute, endearing, and sweet romance. I loved the women's friendships and Georgie's brother's kooky wife. I loved the secondary characters and the dynamic they bring to this story and I seriously can't wait for more in this series!

After several starts and stops, its official, I'm pulling the plug on my first Tessa Bailey. I kept telling myself that if I just pushed through a little further, at some point the story would really grab me. At 182 pages, that little exercise has proven futile. So, in the name of living reading my best life, I think it's time to cut my losses and move on to something more worthy of my time.

I can't deny, the uber-cute, smile-inducing cover made it darn near impossible to stop the runaway train of possibility in my brain. But, as we all experience at one time or another, the cover's no matter how great is in no way indicative of the journey that awaits the reader. It all comes down to the combination of words and the feelings those words happen to inspire.

I found Fix Her Up to be a recycled mix of one too many romance tropes, told through a cast of characters I couldn't take seriously, and sorry to say, all done with a bland delivery. Bailey's words lacked the charisma necessary to keep this finicky reader engaged.

And while there are bound to be hoards of readers who find virginal 23-year-old Georgie quirky, I'm not one of them. How was I supposed to take the girl seriously when (1) she's a clown (are there even any children on planet Earth that like clowns anymore?), (2) she's never been on a date (say what?) and (3) she just realized after a childhood of hand-me-downs that she could shop somewhere other than the thrift store (insert eye-roll here)? In Georgie's defense, *fix her up* correlates to the growth she strives for in multiple facets of her life—career, home, and physical appearance improvements—not only the fake relationship that she lands herself in. Yawn.

Those who know me best, know my inner giddy girl is not one to shy away from the steamy scenes. BUT when that seems to be the only part of the story that's managing to hold my interest, it's time to cut and run. Although, I've gotta say, good ole Two Bats really knows how to make a girl blush. *wink*

Fix Her Up

As always, this is simply the opinion of one reader; and a picky one at that. You shouldn't let my thoughts hinder your own experience or keep you from delving into Georgie and Travis's little scheme. You never know, this might be your next favorite.

*Thank you to Avon Books for sending a review copy. [...more](#)

The beginning of the book was fine, it starts off with Ge The ARC of this book was provided by the publisher via Edelweiss in exchange for an honest review.

When I read the premise of this book I was sold. A romance about Georgie, a young woman who wants to be taken seriously despite her job and her age. Yes to that! The fake-dating trope with Travis, her brother's best friend and former baseball star, yes please!

So, as I said, the premise was good, but then it went downhill pretty fast for me.

The beginning of the book was fine, it starts off with Georgie intervening in Travis's life and trying to make him realize that he should not waste his life drowning his sorrows in alcohol on his couch. It was okay, she was helping an old friend and I was fine with that.

I liked Georgie's character straightaway, she seemed to behave like an adult and I was really sorry that her family could not see it. A family of stubborn people, that's what they were.

I also liked the initial interactions between the two main characters. They were friendly and flirty, it was going great. But then Travis became way too controlling in bed and I was so not into it. I did not appreciate this aspect of his character.

Spoilers down below

I also wasn't a fan of the marriage proposal at the end. Could he not just have said he was sorry and be done with it? Was the proposal really necessary after a month of fake dating? To me it just felt out of place and also a bit out of character. I understand his love for Georgie and his desire to make her happy but I would have been happier with just the two of them reconciling.

Now let's talk about what I did like very much.

I liked Georgie's character development. She was always an adult to me but I was happy to see the others realize this truth. She worked on herself and also on her company and I was so happy to see her succeed. Also, the Just Us League was such a nice idea and I think the women in it could really benefit from the support of other women that might be going through that very same stuff. I understand that this book is the first in a series so I hope the next ones are about Bethany and Rosie, I want to see them happy and I think their stories could be very interesting to read, considering they have such different aspects involved.

Another thing I appreciated was how the prejudices and the hearsay about Travis were dismissed. He had a reputation before coming back home and people kept reminding him of that, which could be okay if you know him but not if you are a total stranger in a bar. Georgie stood up for him and he also stood up for himself by believing and accepting that he could be better than his past self. It was nice to read.

Overall this was not the read for me, even though I found some elements enjoyable. If you're a fan a romance like me and you find the premise interesting you still might find this book great, so you might want to check it out. ...more

Title: Fix Her Up

Series: Hot and Hammered #1

Author: Tessa Bailey

Release date: June 11, 2019

Cliffhanger: No

Genre: contemporary romance

The rom-com has made a huge comeback and with the increase in popularity, the illustrated cover is literally everywhere you look. I'm a sucker for these adorable covers. I get why they're being used to attract readers in romance, but I believe the cover should be a representation of the inside and I really don't think that's the case with this one. It's even promoted as a rom-com which implies something light and sweet, and again, I don't think that's very fitting. To me this is general contemporary romance with very smutty, erotic parts. I'm not saying it was on the angsty side, or that there wasn't humor, but it was far from what I thought I was getting when I opened it up. Honestly, I came close to quitting in the first half of the book because Travis is exactly the cliché cocky bad boy hero that I dislike. Though I will admit that he worked through his relationship fears in the end and made quite the grand gesture to convince her that he was not only sorry, but committed for good.

Travis was the town hero and always destined for the major leagues. Everyone knew it, and when he finally made it, his popularity only increased in the public eye. Until the injury that robbed him of his hard earned career and left him bitter and angry at the world. He's back home feeling like a failure, wallowing in self-pity. Enter Georgie: his best friend's little sister. Instead of joining his pity party and patting his head, she gives him a dose of tough love.

I enjoyed Georgie from that very first scene. She has spirit and pulls no punches with Travis. However, with her family she struggles to stand up for herself and fails to make them respect her for the intelligent adult she is. They love her, but tend to underestimate her and treat her as if she's a silly child. In fact, in one scene, the whole family is arguing and she tries to interject with her opinion. Only to be

shut down by her dad and told to "Let the adults handle this." The woman is 23 years old! You can imagine how embarrassing and frustrating that is. She's the only one who was not allocated a spot in the family company. Instead, she works as a clown entertaining children at birthday parties because she feels as if that's all she'll ever be in their eyes anyway.

The dismissive texts from her siblings were nothing new. But this desire to prove to them she was a capable adult only grew stronger.

Which brings me to his nickname for her. It's pretty much the worst thing you could possibly come up with for a heroine who is upset about being treated like a child. Yet he calls her baby girl and she melts into a puddle. I never understood what it was that she liked. He would regret when it would slip out, and she even found that sweet.

“Move up a little, baby girl.” Baby girl. She loved when he called her that. Probably because he winced every single time, like he couldn't control the endearment.

When it came to Travis, I should have felt sympathetic because of his sudden upturned life. But he was too unlikeable for too long. In the beginning he didn't seem to care about anybody other than himself. Even Georgie's brother is supposedly his best friend yet he showed zero affection to him, never spent time with him, and they had nothing in common. Their friendship just wasn't believable to me. When it came to the heroine, he had to come to terms with the fact that she wasn't the little kid that he remembers when he left town for college. He's dismissive to her kindness to him and selfishly stands her up and breaks a promise to her without even planning to apologize. He did this knowing how much it hurt her when her family was a no-show to the brunch she worked really hard on. He does make amends later, but by that time I think it was a lost cause for me.

The two tropes listed in the synopsis are brother's best friend, and fake relationship. We also had the experienced guy with a reputation and the "good girl" virgin. I wasn't a fan. First of all, when he starts to notice her as a woman (of course only seriously after she ditches her thrift store clothes and dresses in expensive, revealing clothes) she hints that she's inexperienced and he immediately knows she's a virgin. He follows this internal revelation by thinking:

If he didn't kiss her, someone else would claim that first kiss. No. No, he didn't want that.

So now he's figured out that she has never been kissed? At 23 years old, a virgin is believable though not common. But I must be missing something. There is no way she graduated college and reached that age without EVER kissing anyone. It's really emphasized how she has no knowledge about boyfriends and relationships, and she's never even flirted on the phone. There wasn't actually a plausible reason given for the fact that she's supposedly never interacted with guys at all beyond the "friend zone." Despite this inexperience, she automatically "submits" to his orders in bed and demands rough sex. She begs him to teach her in bed, and repeatedly reassures him that she's fine with a temporary physical relationship that will end when their fake relationship ends in a couple of weeks. This is a guy she

crushed on as a kid, fantasized about, and is now growing very adult feelings for him. But she'll take a couple of fake weeks with him.

Later in the book, we delve into why he keeps pushing her so firmly away the second he realizes he shows her affection. When he finally did break himself free from the chains of the past it was a brief moment of self-reflection and abruptly he was ready to enter into a serious relationship with her. There was finally some sweetness at the end, but it was mostly not a romance I would typically read or enjoy. Many will disagree. If you like a domineering, self-absorbed player, this could be just the book you're looking for.

Travis Ford moves back to his hometown Fort Jefferson after an injury ends his baseball league career. Seeing his future implode before his eyes, he has no immediate plans apart from drinking himself into a coma.

Georgie Castle is Fort Jefferson's resident party clown extraordinaire; literally. Being the youngest of the Castle siblings, Georgie is used to being belittled and overlooked by her family. Even as a party planning businesswoman; no one really takes her seriously.

That is until Travis Ford returns to town.

With everybody handling Travis with kid gloves, Georgie takes it upon herself to draw him out of his slump. Even though he doesn't appreciate her meddling, he can't help but be impressed by her, although it's evident that nobody else is.

œThey could be friends, him and Georgie. That's what was wrong. He didn't want one-especially her. She was too young, too positive, and too related to his best friend.â•

When Travis lets her down, its just another thing to add to her never-ending list of disappointments. Except this one hurts the most!

“The pressure in her chest had been growing stronger since this afternoon. By now, it felt like a pair of pliers was digging into her heart. God, I’m such an idiot.”

As both realize they have questionable reputations, they decide to enter a fake relationship to achieve their lifetime goals. There is no questioning that Travis and Georgie have undeniable chemistry, but can they overcome their hang-ups to admit that they can be more than friends?

Fix Her Up is a friend to lovers™ romantic comedy but with more depth than you would expect from this trope. Both characters were witty, compassionate and hot together. With Travis’s dirty talk and Georgie’s laugh out loud personality, these two burned up the pages and kept me smiling.

“I want your hands all over me. Your mouth on mine. And next time you get out of bed without giving me both, I’m going to find you, pull your pants down, and backhand that little tush you had tucked up in my lap all night. We clear?”

~Arc™ provided by Netgalley in exchange for my honest opinion.
