

The background features a network diagram with white nodes and lines on a purple-to-pink gradient. The nodes are connected by thin white lines, forming a complex web. Some nodes are larger than others, and the overall structure is abstract and geometric.

The Escape Manual For Introverts

Feeling cornered at a wedding reception by gossipy guests? Stuck at a holiday party that lasts forever? This beautifully illustrated book is the ultimate funny, sometimes absurd guide to escaping those painfully awkward situations.

The Escape Manual For Introverts Pdf

Trapped in an airplane seated next to a chatterbox? Are you hosting a dinner party with people who just won't leave? Katie Vaz has the key to your escape. *The Escape Manual for Introverts* guides readers through different scenarios with themed chapters ("Friends," "Relatives," "Strangers," etc.). Each chapter covers a range of situations, from an invitation to karaoke night to group lunchtime. And she offers a number of escapes for each scenario: bringing odoriferous foods to lunch for a while, having a pet (real or imagined) that "requires" frequent check-ins, and even investing in a jet pack. This book features Vaz's full-page illustrated spreads, hand-lettering, and spot illustrations. From the silly to the sincere, Vaz's clever, hilarious escape plans and bizarre excuses speak to the introvert in all of us.

A short, humorous graphic novel about ways introverts can escape social situations.

Being an introvert myself, I can relate to the appeal of solitude and silence. The book presents various scenarios and different escape routes for the quiet ones. I liked the art, it was simple but clear and beautifully drawn.

Overall, I enjoyed it and recommend it to introverts who enjoy stories in graphic form.

Escape The Boom Manual

I'm something of an introvert myself but this introvert found this to be a straight forward, common sense list lacking any wit or humor and is perhaps, somewhat droll. At best, it's a five minute flip through read while sitting on the toilet.

Received a review copy from Andrews McMeel Publishing and NetGalley. All thoughts are my own and in no way influenced by the aforementioned.

The ARC of this book was provided by the publisher via Edelweiss in exchange for an honest review.

This was such a cute and fun read. I'm an introvert and I actually saw myself in some of these lovely comics. The drawing style was simple but effective and also quite pleasing to look at. I think this book would make the perfect gift for someone who's an introvert.

The Costa Rica Escape Manual

This is pretty basic: it's just a collection of possible scenarios you might face, and things you could say to get out of those situations. Some of them are amusing, but mostly, they're repetitive and generic, like saying "I have to go pick up (insert name of person nobody at party knows) from (insert far-away location), bye!"

I definitely expected more comedy from this and I thought it would be... well, cuter? Sigh.

A short and funny graphic novel that as an introvert I highly appreciate.
Some of the excuses are silly but even those feel like logical responses.

I recommend it to introverts who want to have a little fun.
