Eloise and Peril are one of my favorite romance couples....their rocky road to love is wonderful to read. The addition of various other intriguing characters, a fascinating historical setting, a compelling plot, and totally satisfying sexual chemistry between the leads, makes this one a keeper. This is a great summer read (and my copy has the chlorine stains to prove it!). By the way, if you read this one and love it, I would also recommend The Wife Test- another really cute book!
