American Avocet Life History, All About Birds, Cornell Lab ... The American Avocet takes elegance to a new level. This long-legged wader glides through shallow waters swishing its slender, upturned bill from side to side to catch aquatic invertebrates. It dons a sophisticated look for summer with a black-and-white body and a rusty head and neck. During the winter the head and neck turn a grayish white, but the bird loses none of its elegance as it forages.
