Figure 8: Sample entry from Knapp's search thesaurus () The converse of the search thesaurus is the indexing thesaurus, to be used for indexing and not for search. While applications are sometimes found in which indexing is enhanced automatically with the help of a thesaurus, a standard thesaurus is usually applied, rather than one designed for indexing alone.

Issues in American Copyright Law and Practice Issues in American Copyright Law and Practice . by . Joseph F. Baugher . Last revised January 21, 2019 This work is issued under . a Creative Commons license. The global structure of an HTML document Every HTML document must have a TITLE element in the HEAD section.. Authors should use the TITLE element to identify the contents of a document. Since users often consult documents out of context, authors should provide context-rich titles. Thus, instead of a title such as "Introduction", which doesn't provide much contextual background, authors should supply a title such as "Introduction to.
