Bluebirding Basics - nests and eggs, timetable, nestboxes ... Scouting: February to Mid-March: Bluebirds start checking out nesting sites. Late arrivals, or previously unpaired birds may nest as late as July or even August, and some pairs have multiple broods. It's never too late to put up a nestbox, as they may be used for a subsequent nesting (see Number of Broods), for roosting, and are also often checked out in the fall by birds that may return the. Hunt | Hunting | South Dakota Game, Fish, and Parks Hunting in South Dakota. South Dakota is renowned world-wide for its pheasant hunting, and rightfully so. Did you know that only three times in the past 20 years has the annual pheasant harvest been under 1 million roosters, and those "down" years had well over 900,000 harvested birds.

Wrybill | New Zealand Birds Online The wrybill is a small pale plover which breeds only in braided rivers of the South Island. It is the only bird in the world with a laterally-curved bill (always curved to the right), which it uses to reach insect larvae under rounded riverbed stones.
