

The background of the cover is a gradient from dark purple at the top to a bright pink at the bottom. Overlaid on this is a complex network of white circular nodes connected by thin, light purple lines. The nodes are scattered across the page, with some forming distinct geometric shapes like triangles and quadrilaterals. The overall effect is that of a digital or biological network.

9 of the World's Deadliest Mammals | Britannica.com Mammals are the soft, cuddly creatures of the animal kingdom. Often, mammals are the animals people are most familiar with. They are employed as working animals in the fields, as guards and companions in homes, and their visages inspire the stuffed animals on the beds and in the arms of young children. Mammal - Wikipedia Mammal classification has been through several iterations since Carl Linnaeus initially defined the class. No classification system is universally accepted; McKenna & Bell (1997) and Wilson & Reader (2005) provide useful recent compendiums. George Gaylord Simpson's "Principles of Classification and a Classification of Mammals" (AMNH Bulletin v. 85, 1945) provides systematics of mammal origins. Prevention and control of damage caused by shrews Shrews are not protected by federal Scientific name Common name laws, with one exception. The south-eastern shrew (*Sorex longirostris fischeri*) is protected in the Great Dismal Swamp in Virginia and North Carolina by the Endangered Species Act of 1973.
